# GAME RULES - BACCARAT

## INTRODUCTION

Baccarat is a game of chance where your aim is to guess which betting option wins next - the Player or the Banker or bet on a Tie (equal score between these two betting options). There are as well the options to make a bet on sidebets which are Player Pair or Banker Pair. We offer No Commission Baccarat.

## BETS

You may bet on all options with one exception - you can't bet on the Player & Banker at the same time. One player can only bet on one box.

## 3RD CARD RULE

Initially the dealer deals two cards, one by one to each betting position, beginning from the Player. Once the initial two cards have been dealt and we know if any additional cards are needed for Player and/or Banker, the dealer draws the necessary card for Player first and based on that 3rd card we will know if the extra card for the Banker is needed or not.

<b>Player</b> - In case the score after the first two cards is	
0 to 5	Draws a card
6 or 7	No additional cards shall be taken.
8 or 9	No additional cards shall be taken. ("Natural")
<b>Banker</b> - In case the score after the first two cards is	
0 to 2	Draws a third card unless Player has a Natural 8 or 9
0 to 5	Draws a third card if the Player has 6 or 7 with the first two cards.

3	Draws, unless Player drew an 8 as a third card.
4	Draws if the Player drew from 2 to 7.
5	Draws if the Player drew from 4 to 7.
6	Draws if the Player drew from 6 or 7.
7	Stands, no additional cards shall be taken.
8 or 9	No additional cards shall be taken. ("Natural")

## PAYOUTS

All payouts on Player and Banker are paid 1:1 except when Banker will win and the result is 6 points, the winning bets on Banker will be paid 1:2 i.e. 50% as we use No Commission Baccarat rules.

Tie bets are paid 8:1

Player & Banker Pair bets are paid out 11:1

In case of disputes the Manager's decision is final.
